Lydia,

Do I have your permission to use my purchase card to spend an amount not exceeding \$500.00 to purchase as many as 11 aerial photos that [Squire Haskins Photography](#) has of the site area from the mid-1970 through early 2000's.

[Squire Haskins Photography](#) will charge \$50 per ordered photo with a 10% if ten or more are ordered.

I plan to go to Squire Haskins Photography's office in Houston next week to view and select the needed pictures.

Payment will be made to [Squire Haskins Photography](#) with a credit card.

Dee,

Perfect. Your below photo illustrate the area I'm looking for. As discussed, photos of interest will be from 1960 to the present for the following areas:

1. Area A.
2. Area B.
3. From area A to east shoreline of the San Jacinto River.
4. From area A to the "C" shaped island located north of area A.

Did you say that all photos, or only recent photos, taken by [Squire Haskins Photography](#) are high resolution that allow zooming in on particular areas of the picture?

Looking forward to you tomorrow's email.

Hi Bob,

Here is a photo that was taken in 2008 that I think will show the area you are looking for. I've marked 'A' and 'B' on the picture. Let me know if it is either.

Thank you,
